| External Drive $=500$ GB | Internal Drive=250 GB | Mac Mini Drive $=160$ GB |

1) Which drive is the largest drive? What is the size?
2) Which drive is the smallest drive? What is the size?
3) How many megabytes is the external drive?
4) How many kilobytes is the external drive?
5) How many word documents can fit on the external drive?
6) How many songs (round to the largest whole number) can fit on the External Drive?
7) How many megabytes is the Internal drive?
8) How many kilobytes is the Internal drive?
9) How many word documents can fit on the Internal drive?
10) How many songs (round to the largest whole number) can fit on the Internal Drive?
11) How many megabytes is the Mac Mini Drive?
12) How many kilobytes is the Mac Mini Drive?
13) How many word documents can fit on the Mac Mini Drive?
14) How many songs (round to the largest whole number) can fit on the Mac Mini Drive?
15) How many word documents can fit on the floppy drive?
16) How many word documents can fit on a CD?
17) How many songs can fit on a CD?
18) How many songs can fit on a DVD-R?

Using the iTunes image of a 16 GB iPod below, answer the questions (use 16 GB in your calculations, not 14.52 GB as shown in the Capacity). Consider that an average app is 25 MB.

| Capacity <br> 14.52 GB |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | $\square$ Audio | $\square$ Video | $\square$ Photos | $\square$ Apps | Other | Free |
|  |  | $3.37 \mathrm{~GB}$ | 170.9 MB | 474.8 MB | 231.4 MB | 7.91 GB |

19) How many more movies can fit on this iPod?
20) How many more songs can fit on this iPod?
21) How many more apps can fit on this iPod?
22) How many more photos can fit on this iPod?
23) If this was an 8 GB iPod, how much Free space would I have?
24) Could I put 10 songs on it before it was at its full capacity?

| Information |
| :---: |
| name Family picture |
| from $9 / 5 / 09$ |
| to $10 / 21 / 09$ |
| items 105 photos |
| size 289 MB |

25) The picture above is from a Macintosh application called iPhoto. What is the average size of the photos in the album?
26) My entire photo library is approximately 7.5 GB . Approximately how many pictures is that?
27) If I backed up my entire 7.5 GB photo library to a DVD-R, what is the minimum number of DVD's I would need to completely back up my library?

28) The image above left shows information about my MacBook. How much RAM does it have?
29) Which is larger, the memory (or RAM) in the computer or the Internal Drive?
30) The computers we use have 4 GB of RAM, if the average application size is 100 MB . How many applications can I run at one time before my computer crashes? Assume the OS also uses 100 MB of RAM.
